When Lucy Scarborough turns seventeen, she learns about the curse that has sent the women of her family spiraling into madness for generations. To save herself from this fate, Lucy must complete three seemingly impossible tasks from an old ballad. But unlike the Scarborough girls who have failed to break the curse, Lucy won't be alone. She has her fiercely protective foster parents and her childhood friend Zach to help her tackle the three tasks. Do they have enough love and resolve to save Lucy from the curse?
